

PSICO2™ REBEL

US Patent pending: 14/934,278

CA Patent pending: 2,911,789

CO2 Shatter in a day
without the use of ethanol!

PSICO2™ extractors are faster than any other system on the market. Featuring non-stop processing, their design makes reloading simple and easy with no interruption to processing.

The collection chamber utilizes an in-line fraction system. It's unique design produces extractions that rival butane systems in concentration and quality.

PSICO2™ Rebel grows with you; processing up to 600 pounds a month on one system.

Dual Chambers

2.5L chambers each holding 650 grams of material

Allows for continuous operation

Change out chambers while continuing to process

Collection Chamber

Inline fractional separation of waxes and impurities

CO2 Pump

High performance CO2 Pump

Pneumatic Driven liquid CO2 pump

19.27L/min @ 0 psi, 7.41 L/min@2900 psi

The Rebel.....\$62,995.00
