

PSICO2 Intimidator

Process 24 lbs in 8 hrs

Dual 10 Liter System
Electric CO2 Pump
30 L/min. for increased productivity
Non-stop processing
Maximum throughput

\$147,000*

** Prices subject to change*

PSICO2 Systems feature

- Stainless Steel construction
- Manufactured to ASME standards
- Easy operation
- Remote monitoring available
- Compliant with State certification
- UL listed components
- Recirculating system

Also available

- Lab equipment
- Molecular distillation
- Short path distillation
- Rotary evaporators
- Vacuum ovens

Financing available

*NCIA Cannatech
Award Recipient*

Renegade

Process 12 lbs in 8 hrs

- Dual 5 Liter Systems
- Electric CO2 Pump
- 15 L/min for increased productivity
- Non-stop processing
- Ultimate throughput

\$103,000.00

Rebel

Process 6 lbs in 8 hrs

- Dual 2.5 Liter System
- Pneumatic Liquid CO2 Pump
- 7.31 L/min. for increased productivity
- Non-stop processing
- Tremendous throughput

\$65,495*

Bandit

Process 3 lbs in 8 hrs

- Dual 1.5 Liter System
- Pneumatic Liquid CO2 Pump
- 4.12 L/min for increased productivity
- Non-stop processing
- Increased throughput

\$49,995*

Sidekick Benchtop System

Process 1.5 lb in 8 hrs

- One liter system
- Pneumatic liquid CO2 pump
- 2.5 L/min for increased productivity
- High throughput

\$25,995*

Patented In-line

Fractioning

PSICO2 systems are engineered specifically to capture cannabinoids, with concentrations ranging from 70-80% right out of the collection chamber.

“The product produced from [this] system is unlike any other supercritical system”

-- Jason Gilbert, President, Nature's Path Extracts
